

REGULATION SCHOOL CAFETERIA PAYMENT PROCEDURES

Arapaho-Butler School District uses a meal accounting system in the school cafeteria. Each student is assigned a meal number. Lunch money is deposited in the student's account. Each time the student eats the meal is deducted from his/her account.

PREPAYMENT IS REQUIRED. In the case of charges, no student may exceed \$25.00. If a student's account exceeds \$25.00, the school has the option to deny further charges/services. It is our desire that no student goes hungry or undernourished. If it becomes impossible for parents to pay a student's meals, the parent should contact the superintendent. When it is determined that a necessity exists, proper arrangements can be made.
